

Dear Parent/Guardian,

In accordance with Oregon Administrative Rule 581-22-220, Eagle Point School District 9 performs yearly hearing screenings for Kindergarteners. Hearing impairments in children can impair child development, interfere with early literacy and learning, lead to behavior problems in the classroom, and lead to permanent hearing loss. Early detection and treatment are critical.

If you DO NOT want your child to have hearing screening at school please fill out this form and return it to your student's school office or teacher.

Thank you,
Kayla Wilson, RN
Eagle Point School District Nurse

I (parent name) _____, wish to opt out (student name) _____ of hearing screening for the 2022-2023 school year.
